Preparations Complete For Dinner
at Social Club at Noon and
Dance in The Evening

With the program finally arranged for the formal reception in the afternoon, arrangements were practically completed today for the homecoming and welcome of returned soldiers, sailors and marines here tomorrow.

The only formal meeting of the program for the day will take place at 1:30 o'clock at the Main Street Christian church. The address of welcome will be delivered by Judge Will M. Sparks and short talks will be made by Adjutant General Harry B. Smith of Indianapolis, and the Rev. M. W. Lyons and E. B. Thomas representing the welfare organizations. Several of the soldiers will be called on for short talks on their experiences in the service.

The Indianapolis News Newsboys band will have a part in the program, including accompaniment to the singing. Patriotic airs are to feature the entire gathering. Mrs. Carl F. Behr will sing "When the Boys Come Home," and B. F. Miller will sing "Keep the Home Fires Burning." Mr. Miller will lead the singing.

The dinner to all soldiers, sailors and marines in the late war and veterans of former wars, will be served in the Social club promptly at twelve o'clock. Every "Yank" in Rush county tomorrow, regardless of his former residence, regardless of the unit he served with, or if he is only a visitor here, will be a welcome guest at all of the functions.

Every one who will be a guest at the dinner is requested to register during the morning at the sheriff's office in the court house and receive his guest badge. The dinner is being arranged and will be served by committees representing the Red Cross and the War Mothers club. The orchestra of the 130th field artillery regiment will play during the dinner.

Led by the Newsboys band, the soldiers will form in line at the corner of Morgan and Second streets and march to the Christian church where the program will be given. Each person on the street is asked to carry a small flag so that the demonstration which will be given the soldier boys may seem the more realistic.

The children of the Rushville public schools, who will assemble at their usual place after the noon hour, will march into Main street and form a line on each side of the street from the C. I. & W. railroad to the church. Other spectators are urged to stand along the sidewalks south of the C. I. & W. It was stated today that probably a majority of the township trustees of the county would dismiss their schools tomorrow so that children from all over the county might par-

icipate in the demonstration.

There will be nothing very formal or stiff about the program at the church, the program committee announced today. Everything will be done to give the meeting an air of informality, like a big gathering of neighbors all come together to say welcome to their friends who have been away.

All men in the late war are requested to wear their uniforms because their appearance in the same as when they were in the service will serve as an inspiration to the people who will welcome them.

The school children will fall in line behind the soldiers and march to the church. For this reason, it was being urgently requested today that automobiles not be driven through the crowd in the streets after the procession of soldiers passes because with so many small children running free, there would be danger of accidents.

Decorations began to go up today and tomorrow the whole city will be in festive attire for the biggest day Rushville has seen since before war was declared. Merchants will decorate their store fronts and will join, two or three together, as the case may, in decorating the ornamental lamp posts.

The interior of the court house today was being festooned with the national colors until every corridor was a sea of red, white and blue, in preparation for the dance tomorrow night. County offices will be left open for the accommodation of the spectators and to provide them with seats. All civilian couples dancing will be charged one dollar each, but every man in a uniform, of course, will be a special guest. Two orchestras will provide the music, one being stationed on the lower floor and the other on the landing between the second and third floors.

The custodian of the court house announced today the decorations would be left up several days and that people who had loaned flags were requested not to come and get them because they would all be carried for.

BOY IS SHOT IN THE HAND

Wallace Conover, 13, Painfully Injured in Accident Sunday

Wallace Conover, age thirteen years, son of Mr. and Mrs. Robert Conover, was painfully hurt Sunday afternoon when accidentally shot in the right hand by a 32 calibre revolver. The bullet passed through the fleshy part of the palm of his hand and the flesh was burned, but no serious complications are expected. The revolver was discharged when the boy was trying to make the cylinder revolve.

SKAGGS CASE POSTPONED

The case of the state against Leonard Skaggs of Milroy, charged with giving intoxicating liquor to a minor, did not come to trial today. The postponement was necessary on account of the illness of Mrs. George W. Young, Mr. Young being Skaggs' attorney.

PRIVATE BUNNELL IS HERE

Son of Baptist Pastor Wounded in Action in France.

Private Ruskin Bunnel, of the 96th company, 6th regiment of the marines arrived home yesterday on a furlough and is the guest of his parents, the Rev. C. J. Bunnel, pastor of the First Baptist church, and Mrs. Bunnel. Private Bunnel arrived in the states a week ago and his visit came as a surprise to his parents. He was in France a year and in active service up until June when he was wounded. Private Bunnel was not decorated although he had been recommended for a decoration.

WILL ENDEAVOR TO COMPLY WITH TERMS

Ebert Says He will Not Be Responsible for Signing if Allies Make Further Demands.

DID NOT ENCOURAGE REVOLT

(By United Press)

Berlin, Jan. 20.—Chancellor Ebert declared in an interview today that Germany will do everything to comply with peace conditions. They favored President Wilson's fourteen points but that if the allies made further demands he will not take the responsibility of signing the peace terms, he said.

He said: "Germany needs peace immediately, that she may get food and materials so her people can work. The Spartacists lost their revolution and no further serious outbreak will occur if the people are fed."

"If they are not fed, we must be ready for anything. The charges that the government encouraged the disorders so as to escape its debts is false," he continued. "The reason we did nothing against the Bolsheviks at the beginning of the revolution was that the armies as they flock homeward, were disorganized and useless. Now the government forces have been rebuilt and we intend to use every means to suppress Bolshevikism. The great danger of a Bolshevik victory is over."

"As soon as the economic situation clears up, international trouble will cease. It is the question of peace and help from the entente."

CORP. TROBAUGH ON STRANDED TRANSPORT

Former Rushville Boy Safely Land-
ed From Northern Pacific Jan.

4. Mother Learns

FIRST WORD HE WAS HOME

William Trobaugh of the marine corps, who was wounded in action October 3 and landed in New York January 4, was on the stranded transport Northern Pacific, which went aground off Fire Island at 2 a. m., January 1, according to a letter received today by his mother, Mrs. Belle Trobaugh. It was the first information she had that her son was back in the United States.

Corporal Trobaugh says that he was transferred in the life boat from the Northern Pacific to the Des Moines and taken on into Hoboken dock. Corporal Trobaugh was first in a naval hospital at Brooklyn for five days and then was sent to the marine barracks, corner of 168th street and Broadway, New York, where he is now stationed.

Corporal Trobaugh said he was wounded the morning of October 3, after having gone over the top at 5 o'clock and having advanced about three kilometers. He enlisted in April, 1917, soon after the United States entered the war and was stationed at Quantico, Virginia, before going overseas October 17, supporting them."

RUSS SITUATION FIRST CONSIDERED

Associated Powers Take up Question Which is Greatest Obstacle to Peace

REACH NO UNDERSTANDING

Indicated by Announcement That Conference Would Continue Hearing Tomorrow

(By United Press)

Paris, Jan. 20.—The associated powers today took up the Russian situation which is recognized as the present obstacle to the quick peace settlement and establishment of the league of nations.

The meeting was attended by two delegates of each of the five great allied nations. President Wilson and Secretary Lansing represented the United States.

That no definite understanding was reached concerning representation for the various Russian factors was indicated by the official announcement that the conference would continue its hearing on Russian affairs tomorrow.

Today the meeting was addressed by French Ambassador Moullens. The president after the meeting went to the French senate where he had luncheon as the guest of the members of senate.

President Wilson met representatives of Great Britain, France, Italy and Japan in a closed conference this morning to take up contests arising from credentials of some of the smaller represented delegates. These contests must be settled before the peace congress can get down to business.

While nothing has been made public concerning any conference in regard to representation, it has been known that the Balkan situation presents opportunity for much trouble. No date has been set for resuming of the general peace congress but it was expected to get under way tomorrow.

Meanwhile memorandum on the league of nations, international labor, legislation and responsibility for the beginning and continuance of the war was submitted today.

A committee on credentials consisting of a representative of each of the nations represented was appointed at Saturday's meeting.

Today conferences on this matter, however, opened with only five big powers represented.

FIGHTING IN STREETS CONTINUES IN BERLIN

Spartacists Attempt to Destroy Ballot Boxes But Are Repulsed by Loyalists

HUNS PROTEST TO RUSSIA

Copenhagen, Jan. 20.—Street fighting, which broke out in Berlin, when Spartacists attempted to destroy ballot boxes throughout the city, continued throughout the night, according to dispatches received from Berlin today.

The Spartacists too stormed the Vorwerts building and there was particularly severe fighting but the insurgents were repulsed every time.

Berne, Jan. 20.—Germany has sent a note to the Russian government protesting against the last support of the Spartacists, a Berlin dispatch announced today.

The note read in part as follows:

We are in possession of Proose be-

cause the revolts intended to over-

come the German people by means

of supplying Russian authorities.

The German protests against inter-

ference in German interior affairs

and will take measures against the

insurgents and those who are still

supporting them."

NEW PHONE RATES EFFECTIVE TONIGHT

Will Not be Enforced However, Because of Temporary Injunction Issued by Judge Anderson

CALLS PUT IN FIVE CLASSES

Tolls Depend on Whether Call is Made During Day, Evening or Night—Some Injustice

The new schedule of toll rates issued by the United States telegraph and telephone administration, which was to go into effect at 12:01 o'clock tonight, contains many drastic innovations, such as placing a premium on phone calls from one person to another and on calls where a messenger is required. Tolls are divided in the regulations into three general classes, day, evening and night, and a different charge is made for each class.

The take effect of the new toll charge is temporarily held up however, by a temporary injunction granted by Judge Albert B. Anderson in federal court at Chicago Saturday. Hearing on the injunction will take place in federal court in Indianapolis on January 28 at 10 a. m. No effort will be made here or elsewhere in the jurisdiction of Judge Anderson's court to enforce the new rates until the question is definitely determined.

The Rushville Co-operative Telephone company has received a copy of the regulations and a toll tariff book issued by the administration. The tariffs are arranged so that it is possible to determine the toll on any class of calls up to \$2 as the basic toll.

George Davis, manager of the local company, has been studying the regulations in an effort to familiarize himself with them. He and two of the long distance operators at the local office have attended two telephone meetings held in the last few days at Tipton and Indianapolis for the purpose of discussing the new toll charges.

The day charge is the basis on which all tolls are computed. For instance, as a general rule, an evening toll is fifty percent of a day toll on the same call, and a night toll is seventy-five percent of a day toll. Exceptions to this rule are where the evening or night toll is not under twenty-five cents. In other words, if the day toll were five cents, the evening or night toll would likewise be five cents and so on up to twenty-five cents. If the day toll on a call is fifty cents, both evening and night tolls are twenty-five cents. If the day toll is seventy-five cents, the evening toll is forty cents and the night toll is twenty-five cents.

The twenty-four hours of the day and night are divided for the purposes of the regulations as follows: A call made between 4:30 a. m. and 8:30 p. m. is charged at day rates, one between 8:30 p. m. and 12 (midnight) at evening rates and between 12 (midnight) and 4:30 a. m. at night rates.

In making the rates uniform, the government has classified the toll service as follows: station-to-station calls, person-to-person calls, appointment calls, messenger calls, and collect calls. In explaining each class of calls, the toll rate from here to Indianapolis will be used as an example.

The station-to-station call is one on which the person originating the call does not specify a particular person to be reached at the called station, but gives only the number of the telephone station desired or the name or address under which the telephone is listed. The charges on messages of this class can not be reversed. The toll on a call of this kind from here to Indianapolis will be thirty cents, the same as at present. The only difference is that the

SHORT COURSE OPENS TODAY

Two Weeks School For Poultry Raisers Begins at Purdue

Lafayette, Ind., 20.—A two weeks short course for poultry raisers, began at Purdue university today. The rapidly increasing production of poultry in Indiana has created a demand for such a short course. The Purdue poultry farm consists of 17 acres of land, 1,000 birds, twenty-three varieties of incubators, eleven types of brooders and many poultry farm management systems. Poultry raisers from practically every county in the state enrolled in the short course. It is the first time a short course in this branch of work was offered in the state.

MILROY SCHOOL IS CLOSED

Principal and Three Teachers Ill With the Influenza.

The Milroy school was closed today until Thursday on account of the principal and three teachers being sick with the influenza. Although the situation is not regarded as alarming, there is some fear that there may be a recurrence of the epidemic in Milroy and vicinity. The schools would have been continued in session if it had been possible to fill the vacancies caused by sickness. W. E. Wagoner, the principal, and Mrs. Lillian Hunter, fell sick Saturday. Two other teachers, Miss Gladys Vestal and Miss Claudine Ballard, were already ill with the malady.

Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

NO! All Spreaders Are Not Alike

There is more difference between manure spreaders than there is between men. All men are more or less alike unless they have lost an arm or a leg. I do not claim the RUSHVILLE SPECIAL spreader is the only good spreader made (although I believe it), but I do claim that it is so much better than the best of any other make that you cannot afford to buy anything else.

How about that patented "BULL DOG" double beater wheel that you can't possibly clog or stick? Just think of this the next time you see a neighbor with a pitchfork loosening up a stubborn load in the field. How about that "NO CHOCK" Box that can't be clogged and never yet was stuck on any kind of material? You fellows who have been through this and had the experience with other machines, just tell your neighbors what you think.

Did you ever stop to think that there was a reason for using the expensive hitch that is put on the Litchfield Spreaders, so that your three horses walk squarely in front of the machine, and the pole is put where it is convenient for guiding it? If the old fashioned center pole was as good wouldn't it be very foolish for the Litchfield Mfg. Co., who manufacture this machine for me, to spend unnecessary money in building this modern hitch?

If I had time in this ad I could tell you many more interesting features about the RUSHVILLE SPECIAL Spreader. The next time you are in Rushville, call at my place of business and the machine will be thoroughly explained to you.

The Tuberculosis Fight.

Tuberculosis agencies will seek to secure, through the present session of the general assembly, legislation looking toward the prevention of the spread of tuberculosis in Indiana. The increase of this disease is a matter that cannot be ignored, and those who are making a study of the subject are prepared to wage a strenuous fight against it. It is not expected that there will be any opposition encountered in the Legislature, since it has become so well known all over the country that there must be active steps taken immediately to prevent the spread of this disease. Every legislature in the United States will have bills introduced this winter looking toward this end. Many states already have a tuberculosis commission. Indiana should have one.

The annual meeting of the Indiana Society for the Prevention of Tuberculosis will be held at the Claypool Hotel, Indianapolis, on January 30-31. This is expected to be the largest meeting in numbers and importance ever held by the Society, due to the fact of the alarming prevalence of tuberculosis at this time, as revealed by the selective service system, and the consequent increased interest of the government, as well as the American Red Cross, in the effort

Keep The Kidneys Well

Health is Worth Saving, and Some Rushville People Know How to Save It

Many Rushville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers. Here is a Rushville citizen's recommendation.

Mrs. Lizzie Boren, 840 W. Ninth St., says: "About six years ago I began to have trouble with my kidneys. What bothered me the worst was my kidneys acting irregularly and they showed in a number of ways they were badly disordered. I was told I had gravel. I heard how someone else had been cured by Doan's Kidney Pills, so I got a box at Wolfe's Drug Store. They helped me at once and after I had taken four boxes, the pain had left and I felt a great deal better."

Price 60, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Boren had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Adv.)

Just as The Twig is Bent

Asked to define the years of education we should probably, without giving much thought to the question, place the earlier limit at six years, the age when the child generally enters public school.

Further thought will not bear out this assertion. The first six years of a child's life are all-important to his education. During these his habits of thought and conduct are established, and his happiness and success in life are either assured or made difficult of attainment.

The child trained to self-control and obedience has advanced a long way on his preparation for life. He accustomed himself readily to the routine of the schoolroom, and learns easily to concentrate his mind on study. In other words, he is prepared to gain the greatest advantage from his school work.

The child used to over-indulgence—the "spoiled child"—is handicapped from the start. It will require time to overcome the lack of training—if indeed it can be overcome—and to fit him to the conditions of life.

Our little citizens-in-the-making deserve the best possible introduction to life and to education. And this can only come to them by instilling into them in their early years submission to the laws of a well-regulated home.

Keep up The Habit

It is a good idea to keep up the eating of food not entirely made from wheat throughout the country. The whole grains are best in the long run and the habit of seeing everything white in cakes, breads, etc., is something that will benefit our stomachs the sooner it is overcome.

Barley and rye are good for a greater purpose than that for which they are now used most abundantly—liquors. They are good to eat with our meals not in the degenerate state but in the whole nourishing state where all that is originally found in the kernel is there.

"E pluribus unum" means "one from many." Let us hope that Russia will soon affix something in this sort of a motto to her mastheads.

It may be that formerly we were too proud to fight, but certainly now we are proud of our fighting.

Amusements

Charles Ray at Princess

Dramatic action of a high order and thrills galore are conspicuous features of "The Law of the North," the latest starring vehicle featuring Charles Ray which is to be shown at the Princess theatre tonight. The story was written by Ella Stuart Carson and the photoplay directed by Irvin W. Willat, under the supervision of Thomas H. Ince, whose name on any picture production spells superiority.

There are numerous situations in this thrilling photoplay of the far north which make it one of the best in which Mr. Ray has been seen in many months. Mr. Ray plays the part of a strong man known as the "Eaglet," the son of a commandant of a trading post at the "top of the world." When his father is murdered by an employee of the post, who also abducts the only sister of the eaglet, scenes of intense heart appeal ensue. Alien De Monteal, the part played by Mr. Ray, falls in love with the daughter of the murderer of his own father, and this complicates matters until heaven disposes of the assassin in a novel manner.

Tuesday Lina Cavalieri will be shown in "The Woman of Impulse." Thursday and Friday Douglas Fairbanks will be seen in "He Comes Up Smiling."

Jewel Carmen at Mystic

Jewel Carmen, who has gained a big name for herself as a William Fox star, will be seen Tuesday at the Mystic theatre in "Lawless Love," a story of terrific action.

The story begins with the stranding of a theatrical company the principals of which are La Belle Geraldine (Jewel Carmen) and her dancing partner, whose splendid Broadway clothes cover a fine yellow streak. This dancer is in love with Geraldine, and when she proposes to win a reward of \$2,000 through the dancers impersonation of Black Jim, a bandit, he hesitatingly consents.

Geraldine's plan is to get the supposed bandit, obtain the reward, hurry away, and then have the dancer tell the authorities that it was only a joke, and that he is not the bandit at all. The plan fails because Black Jim himself captures both Geraldine and the dancer, and takes them to his secret cabin in the mountains. The dancer's cowardice puts him in a bad light, while Black Jim shows a fine manly streak. In the end the latter turns gentleman and makes a strong bid for Geraldine, who has come to admire his manner.

Mutt and Jeff will also be shown in "Joining the Tanks."

Amendment to Dry Law Reported in House Abolishes Right to Hold Limited Quantity

BLOW IS AIMED AT DRY BEER

Among Important Bills Ready for Introduction is one Creating Highway Commission

(By United Press.)

Indianapolis, Ind., Jan. 27.—When the legislature reconvened this afternoon after its week-end recess, the public morals committee in the house reported out the Wright bill, proposing to amend the prohibition law, with recommendations that the bill be passed as introduced.

Representative Wright, who authored the prohibition bill at the 1917 session of the legislature, stated today that when the prohibition bill was passed it was not known by the prohibition leaders in the house that it had been amended so as to permit anyone to retain a small amount of whiskey and beer. The bill reported favorably today would abolish this privilege.

Another feature of the bill reported today would prohibit the manufacture and sale of "dry-beer" on the ground that some of it contains alcohol. Under the new bill, no beverages containing alcohol, no matter how small the quantity, may be sold in the state.

Wright declared that many persons had found means of putting a "kick" in near beer and he is of the opinion that this class of drinks is more harmful in many ways than the regular form of intoxication.

It is expected that there will be little opposition to the bill introduced by Senator Masters of Indianapolis which would provide for confiscation of vehicles in which intoxicants are brought into the state.

With these two measures enacted into laws, the Indiana prohibition leaders have stated they are convinced John Barleycorn will officially and finally pass into the great beyond.

Among the important bills ready to be introduced in the legislature when it reconvened today, was the new state highway commission bill which would supplant the measure enacted at the 1917 session of the legislature. The bill was drafted after long conferences between members of the highway commission, legislators and good roads advocates.

It was first believed best to amend the present law, but it was found to be so involved that the plan was abandoned in favor of enactment of an entirely new statute.

The new bill provides for a highway commission of four members, no more than two to be of the same political party. They shall receive no compensation. They shall engage a director at a salary of \$6,000 a year who shall have direct charge of all highway construction, although the final decisions shall rest with the commission.

The highway commission shall be divided into three principal bureaus—one of construction, the second of maintenance and the third of auditing.

A system of highways which shall connect all county seats and towns of more than 5000 will be planned by the commission. The commission is

Funds for state road work are to be procured from a ten cent levy on each \$100, the proceeds of the inheritance, automobile and chauffeur license taxes. Federal aid will

also be given the state under the proposed system, amounting to about \$17,000,000 in the next five years.

This is The Original Wide Spread Spreader

And on account of this feature and the simplicity, durability and dependability of it the makers claim to have reached the three-fifth mark of all the spreader sales made in America in 1917. The other manufacturers, seeing this have copied it until today there are several so-called wide spreaders on the market, but there is none that will beat it in any respect. Come to E. A. Lee and get the original, built by a firm which was the first to solve the spreader problem, by 18 years of successful spreader building. We have them at the right price, having placed our order at a time before the two last advances. The conditions are such that they can't be cheaper for some time. If you need a spreader—have work for one—you will find it worth more to you to use than to wait for a better price.

Your neighbors have them—Bert Eakins, Knecht & Garritt, Omer Hall, Clyde Wilson, Cleve Geise, Elmer Emsweller, George Green, Russell Harrison, Frank Wilson, Clarksburg, James Clark, Clarksburg, Russell Orme, O. L. Carr, W. A. Alexander, and others. Talk to them about their work.

other war contributions, and their allotment of \$275 for this drive will be paid from it. Anderson township will pay its quota of \$450 out of the township's war chest.

Other townships are well on the road to their quotas. Half of Ripley township's allotment of \$450 was in sight yesterday after \$188 was raised at the Friends church by the township chairman, Owen S. Hill. The Fletcher M. E. church of Carthage has already contributed \$49.50, making the total now \$237.50.

Approximately half of Rushville township's share of the county's portion has already been contributed through the Sunday schools. All Sunday schools in the county who have made offerings for the Armenians and Syrians and have sent them on to New York, are urged to report the amount to the county chairman, as the county will receive credit for all contributions.

Meetings will be held throughout the county this week wherever there is a desire for them. The county chairman will provide speakers if any of the township chairmen wish to use this method in raising their quota.

The township chairmen and the quota of each township are as follows: Ripley, Owen S. Hill, \$450; Posey, S. S. Offutt, \$350; Walker, Alba Hurst and E. B. Lowden (east half) and T. K. Mull, (west half), \$300; Orange, D. O. Alter, \$300; Rushville, L. E. Brown, \$1,500; Jackson, I. N. MERCHANT SHIPS TO DISCARD THEIR GUNS

No Longer Needed as Protection From Hun Sea Raiders—Removed When Vessels Arrived.

CHANCE FOR APPRENTICESHIP

Washington, January 20.—Naval guns and gunners placed on American merchant ships to protect them against German submarines are being removed as rapidly as the vessels reach home ports, said an announcement by the shipping board. The rifles and their crews are returned to the navy, while the steel gun emplacements mounted on bow and stern, are dumped on the docks without ceremony after they are cut away.

With the withdrawal of the naval crews accommodations are afforded for apprentice seamen, firemen and stewards, who will be given final training at sea after courses in the shore schools. The officers must have three months' sea duty before receiving their licenses.

NO DANGER OF A COAL FAMINE DURING 1919

1918 Output Exceeds 1917 by 34,000,000 Tons, According to Fuel Administration.

LOST 125,000 MEN BY WAR.

Washington, Jan. 20.—Danger of a coal famine this year has passed, no matter how severe the weather may become, according to the fuel administration. The supply is sufficient, and the 1918 output exceeded that of 1917 by \$34,000,000 tons. Production of bituminous coal and lignite is estimated at 585,883,000 tons, setting a new high record while the production of anthracite is estimated at 99,473,000 tons, a slight decrease from 1917, when the previous high record was broken by 8,000,000 tons.

The mines lost 125,000 men through military service and to other industries, but this number was made up, so that the total of men employed in 1918 will not fall below that of 1917, when it was 603,000. It is estimated that bituminous mines were worked 225 days in 1918.

OAKLAND

Year after year an overwhelming majority of motorists have chosen the full-tonneau passenger car for its many practical features. It is the selection of most homes where automobiles are used. It affords the amount of room required by a large majority of families, and in its main characteristics measures to the popular idea of a car for constant service.

The high-speed overhead-valve Oakland Sensible Six engine delivers 44 full horsepower at 2600 r. p. m., or one horsepower to every 48 pounds of car weight in the Touring model. Oakland owners regularly report gasoline returns of from 18 to 25 miles per gallon and from 8000 to 12,000 miles on tires.

DAILY HEALTH TALKS

A Single Remedy Often Cures Many Diseases

BY VALENTINE MOTT, M. D.

It is almost impossible to give a list of the endless diseases that follow indigestion. Perhaps a whole column in this newspaper would be required to print them all. You eat to keep alive--to supply blood and flesh and bone and muscle and brain. It is easy to see that if your food is not digested and taken up by the delicate organs and distributed where it is needed, a disease of some sort is sure to come. Dyspepsia is a common symptom, and so are liver complaint, loss of flesh, nervousness, bad memory, dizziness, sleeplessness, no appetite. Many times, when neglected, indigestion results in coughs, throat diseases, catarrh, bronchitis and even more dangerous things. And all these disorders arise because the food is not properly digested in the stomach. It is plain even to a child that relief and cure are to be had only by setting up a healthy condition in the stomach. Dr. Pierce, of Buffalo, N. Y., many years ago combined a number of vegetable growths into a temperance remedy for indigestion, and called it Golden Medical Discovery. It is probably the most efficacious discovery ever made in medicine, for the list of people all over the world who have had their countless ills overcome by Dr. Pierce's Golden Medical Discovery makes an amazing total of thousands.

I know of no advice better than this: Begin a home treatment today with this good vegetable medicine. It will show you better than I can tell you what it will do. When taking Golden Medical Discovery, you can rest assured of one very important thing--it contains neither alcohol nor opiates. There is nothing in it but standard roots and herbs that possess curative properties of a high order. A safe medicine is the only kind you can afford to take.

charge can now be reversed. A night or evening call will be twenty-five cents.

A person-to-person call is one on which the person originating the call specifies a particular person to be reached at the called place. Under certain conditions a partial charge will be made where it is impossible to establish communication on a person-to-person call. The call or calls of this class from here to Indianapolis under the new rates will be forty cents, day rate, twenty-five cents evening or night rate.

But if a person in Rushville calls a business house in Indianapolis and asks for Mr. Smith, for example, and Mr. Smith is not there, the telephone company is to charge ten cents for labor required in trying to get Mr. Smith to the telephone. An appointment call is a person-

to-person call on which communication is to be established at a specified time. The day rate on a call of this class from here to Indianapolis is forty-five cents, or five cents more than a straight person-to-person call. The evening and night rate is twenty-five cents.

REVIVAL BEGINS TONIGHT

Preparations Complete For Dinner
at Social Club at Noon and
Dance in the Evening

With the program finally arranged for the formal reception in the afternoon, arrangements were practically completed today for the homecoming and welcome of returned soldiers, sailors and marines here tomorrow.

The only formal meeting of the program for the day will take place at 1:30 o'clock at the Main Street Christian church. The address of welcome will be delivered by Judge Will M. Sparks and short talks will be made by Adjutant General Harry B. Smith of Indianapolis, and the Rev. M. W. Lyons and E. B. Thomas representing the welfare organizations. Several of the soldiers will be called on for short talks on their experiences in the service.

The Indianapolis News Newsboys band will have a part in the program, including accompaniment to the singing. Patriotic airs are to feature the entire gathering. Mrs. Carl F. Behr will sing "When the Boys Come Home," and B. F. Miller will sing "Keep the Home Fires Burning." Mr. Miller will lead the singing.

The dinner to all soldiers, sailors and marines in the late war and veterans of former wars, will be served in the Social club promptly at twelve o'clock. Every "Yank" in Rush county tomorrow, regardless of his former residence, regardless of the unit he served with, or if he is only a visitor here, will be a welcome guest at all of the functions.

Every one who will be a guest at the dinner is requested to register during the morning at the sheriff's office in the court house and receive his guest badge. The dinner is being arranged and will be served by committees representing the Red Cross and the War Mothers club. The orchestra of the 139th field artillery regiment will play during the dinner.

Led by the Newsboys band, the soldiers will form in line at the corner of Morgan and Second streets and march to the Christian church where the program will be given. Each person on the street is asked to carry a small flag so that the demonstration which will be given the soldier boys may seem the more realistic.

The children of the Rushville public schools, who will assemble at their usual place after the noon hour, will march into Main street and form a line on each side of the street from the C. I. & W. railroad to the church. Other spectators are urged to stand along the sidewalks south of the C. I. & W. It was stated today that probably a majority of the township trustees of the county would dismiss their schools tomorrow so that children from all over the county might par-

Ebert Says He will Not Be Responsible for Signing if Allies Make Further Demands.

DID NOT ENCOURAGE REVOLT

(By United Press.)

Berlin, Jan. 20.—Chancellor Ebert declared in an interview today that Germany will do everything to comply with peace conditions. They favored President Wilson's fourteen points but that if the allies made further demands he will not take the responsibility of signing the peace terms, he said.

He said: "Germany needs peace immediately, that she may get food and materials so her people can work. The Spartacists lost their revolution and no further serious outbreak will occur if the people are fed away."

"If they are not fed, we must be ready for anything. The charges that the government encouraged the disorders so as to escape its debts is false," he continued. "The reason we did nothing against the Bolsheviks at the beginning of the revolution was that the armies as they flock homeward, were disorganized and useless. Now the government forces have been rebuilt and we intend to use every means to suppress Bolshevikism. The great danger of a Bolshevik victory is over."

"As soon as the economic situation clears up, international trouble will cease. It is the question of peace and help from the entente."

CORP. TROBAUGH ON
STRANDED TRANSPORTFormer Rushville Boy Safely Land-
ed From Northern Pacific Jan.

4, Mother Learns

FIRST WORD HE WAS HOME

William Trobaugh of the marine corps, who was wounded in action October 3 and landed in New York January 4, was on the stranded transport Northern Pacific, which went aground off Fire Island at 2 a. m., January 1, according to a letter received today by his mother, Mrs. Belle Trobaugh. It was the first information she had that her son was back in the United States.

Corporal Trobaugh says that he was transferred in the life boat from the Northern Pacific to the Des Moines and taken on into Hoboken dock. Corporal Trobaugh was first in a naval hospital at Brooklyn for five days and then was sent to the marine barracks, corner of 168th street and Broadway, New York, where he is now stationed.

Corporal Trobaugh said he was wounded the morning of October 3, after having gone over the top at 5 o'clock and having advanced about three kilometers. He enlisted in April, 1917, soon after the United States entered the war and was stationed at Quantico, Virginia; he is now going overseas October 17, supporting them."

RUSS SITUATION
FIRST CONSIDERED

Associated Powers Take up Question Which is Greatest Obstacle to Peace

REACH NO UNDERSTANDING

Indicated by Announcement That Conference Would Continue Hearing Tomorrow

(By United Press.)

Paris, Jan. 20.—The associated powers today took up the Russian situation which is recognized as the present obstacle to the quick peace settlement and establishment of the league of nations.

The meeting was attended by two delegates of each of the five great allied nations. President Wilson and Secretary Lansing represented the United States.

That no definite understanding was reached concerning representation for the various Russian factors was indicated by the official announcement that the conference would continue its hearing on Russian affairs tomorrow.

Today the meeting was addressed by French Ambassador Moulens. The president after the meeting went to the French senate where he had luncheon as the guest of the members of senate.

President Wilson met representatives of Great Britain, France, Italy and Japan in a closed conference this morning to take up contests arising from credentials of some of the smaller represented delegates. These contests must be settled before the peace congress can get down to business.

While nothing has been made public concerning any conference in regard to representation, it has been known that the Balkan situation presents opportunity for much trouble. No date has been set for resuming of the general peace conference but it was expected to get under way tomorrow.

Meanwhile memorandum on the league of nations, international labor, legislation and responsibility for the beginning and continuance of the war was submitted today.

A committee on credentials consisting of a representative of each of the nations represented was appointed at Saturday's meeting.

Today conferences on this matter, however, opened with only five big powers represented.

Spartacists Attempt to Destroy Ballot Boxes But Are Repulsed by Loyalists

HUNS PROTEST TO RUSSIA

Copenhagen, Jan. 20.—Street fighting, which broke out in Berlin, when Spartacists attempted to destroy ballot boxes throughout the city, continued throughout the night, according to dispatches received from Berlin today.

The Spartacists too stormed the Vorwerts building and there was particularly severe fighting but the insurgents were repulsed every time.

Berne, Jan. 20.—Germany has sent a note to the Russian government protesting against the last support of the Spartacists, a Berlin dispatch announced today.

The note read in part as follows: We are in possession of Prose because the revolutionaries intended to overcome the German people by means of supplying Russian authorities. The German protests against interference in German interior affairs and will take measures against the insurgents and those who are still

Big Meeting Will be Held in Rushville Sunday—Township Chairmen All Appointed

CALLS PUT IN FIVE CLASSES

Tolls Depend on Whether Call is Made During Day, Evening or Night—Some Injustice

The new schedule of toll rates issued by the United States telegraph and telephone administration, which was to go into effect at 12:01 o'clock tonight, contains many drastic innovations, such as placing a premium on phone calls from one person to another and on calls where a messenger is required. Tolls are divided in the regulations into three general classes, day, evening and night, and a different charge is made for each class.

The take effect of the new toll charge is temporarily held up however, by a temporary injunction granted by Judge Albert B. Anderson in federal court at Chicago Saturday. Hearing on the injunction will take place in federal court in Indianapolis on January 28 at 10 a. m. No effort will be made here or elsewhere in the jurisdiction of Judge Anderson's court to enforce the new rates until the question is definitely determined.

The Rushville Co-operative Telephone company has received a copy of the regulations and a toll tariff book issued by the administration. The tariffs are arranged so that it is possible to determine the toll on any class of calls up to \$2 as the basic toll.

George Davis, manager of the local company, has been studying the regulations in an effort to familiarize himself with them. He and two of the long distance operators at the local office have attended two telephone meetings held in the last few days at Tipton and Indianapolis for the purpose of discussing the new toll charges.

The day charge is the basis on which all tolls are computed. For instance, as a general rule, an evening toll is fifty percent of a day toll on the same call, and a night toll is seventy-five percent of a day toll. Exceptions to this rule are where the evening or night toll is not under twenty-five cents. In other words, if the day toll were five cents, the evening or night toll would likewise be five cents and so on up to twenty-five cents. If the day toll on a call is fifty cents, both evening and night tolls are twenty-five cents. If the day toll is seventy-five cents, the evening toll is forty cents and the night toll is twenty-five cents.

The twenty-four hours of the day and night are divided for the purposes of the regulations as follows: A call made between 4:30 a. m. and 8:30 p. m. is charged at day rates, one between 8:30 p. m. and 12 (midnight) at evening rates and between 12 (midnight) and 4:30 a. m. at night rates.

In making the rates uniform, the government has classified the toll service as follows: station-to-station calls, person-to-person calls, appointment calls, messenger calls, and collect calls. In explaining each class of calls, the toll rate from here to Indianapolis will be used as an example.

The station-to-station call is one on which the person originating the call does not specify a particular person to be reached at the called station, but gives only the number of the telephone station desired or the name or address under which the telephone is listed. The charges on messages of this class can not be reversed. The toll on a call of this kind from here to Indianapolis will be thirty cents, the same as at present. The only difference is that the

Two Weeks School For Poultry Raisers Begins at Purdue

Lafayette, Ind., 20.—A two weeks short course for poultry raisers, began at Purdue university today. The rapidly increasing production of poultry in Indiana has created a demand for such a short course.

The Purdue poultry farm consists of 17 acres of land, 1,000 birds, twenty-three varieties of incubators, eleven types of brooders and many poultry farm management systems. Poultry raisers from practically every county in the state enrolled in the short course. It is the first time a short course in this branch of work was offered in the state.

MILROY SCHOOL IS CLOSED

Principal and Three Teachers Ill With the Influenza.

The Milroy school was closed today until Thursday on account of the principal and three teachers being sick with the influenza. Although the situation is not regarded as alarming, there is some fear that there may be a recurrence of the epidemic in Milroy and vicinity. The schools would have been continued in session if it had been possible to fill the vacancies caused by sickness. W. E. Waggoner, the principal, and Mrs. Lillian Hunter, fell sick Saturday. Two other teachers, Miss Gladys Vestal and Miss Claudine Ballard, were already ill with the malady.

ON DELAYED TROOP SHIP.

Lieut. Ralph Wicks, nephew of E. B. Thomas of this city and Mrs. Hatch Innis of Milroy, is on the liner Rocharbene, which was reported missing in bad weather Saturday. Today's dispatches said that the Rocharbene was due to dock at Halifax today. The liner is not in danger, it is stated.

BIG SHOE BILLS CAN BE CUT

"I will always wear shoes with Neolin Soles," writes Mr. M. Newman of the I. Newman Mfg. Co. of Minneapolis. "They are superior soles in every way, waterproof, more comfortable and more durable. After many months of wear they remain in good condition."

Mr. Newman, and millions of others, have found that the answer to the shoe-bill problem lies in getting soles that wear a long time—Neolin Soles.

They are scientifically made, very tough and yet have the other qualities that soles should have—comfort and absolute waterproofness. Get Neolin-soled shoes for your whole family. They are found nearly everywhere and in all styles. Have worn shoes repaired by Neolin Soles. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.

Ruddy Cheeks—Sparkling Eyes
—Most Women Can Have
Says Dr. Edwards, a Well-Known
Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

NO! All Spreaders Are Not Alike

There is more difference between manure spreaders than there is between men. All men are more or less alike unless they have lost an arm or a leg. I do not claim the RUSHVILLE SPECIAL spreader is the only good spreader made (although I believe it), but I do claim that it is so much better than the best of any other make that you cannot afford to buy anything else.

How about that patented "BULL DOG" double beater wheel that you can't possibly clog or stick? Just think of this the next time you see a neighbor with a pitchfork loosening up a stubborn load in the field. How about that "NO CHOCK" Box that can't be clogged and never yet was stuck on any kind of material? You fellows who have been through this and had the experience with other machines, just tell your neighbors what you think.

Did you ever stop to think that there was a reason for using the expensive hitch that is put on the Litchfield Spreaders, so that your three horses walk squarely in front of the machine, and the pole is put where it is convenient for guiding it? If the old fashioned center pole was as good wouldn't it be very foolish for the Litchfield Mfg. Co., who manufacture this machine for me, to spend unnecessary money in building this modern hitch?

If I had time in this ad I could tell you many more interesting features about the RUSHVILLE SPECIAL Spreader. The next time you are in Rushville, call at my place of business and the machine will be thoroughly explained to you.

The Tuberculosis Fight.

Tuberculosis agencies will seek to secure, through the present session of the general assembly, legislation looking toward the prevention of the spread of tuberculosis in Indiana. The increase of this disease is a matter that cannot be ignored, and those who are making a study of the subject are prepared to wage a strenuous fight against it. It is not expected that there will be any opposition encountered in the Legislature, since it has become so well known all over the country that there must be active steps taken immediately to prevent the spread of this disease. Every legislature in the United States will have bills introduced this winter looking toward this end. Many states already have a tuberculosis commission. Indiana should have one.

The annual meeting of the Indiana Society for the Prevention of Tuberculosis will be held at the Claypool Hotel, Indianapolis, on January 30-31. This is expected to be the largest meeting in numbers and importance ever held by the Society, due to the fact of the alarming prevalence of tuberculosis at this time, as revealed by the selective service system, and the consequent increased interest of the government, as well as the American Red Cross, in the effort

Keep The Kidneys Well

Health is Worth Saving, and Some Rushville People Know How to Save It

Many Rushville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers. Here is a Rushville citizen's recommendation.

Mrs. Lizzie Boren, 840 W. Ninth St., says: "About six years ago I began to have trouble with my kidneys. What bothered me the worst was my kidneys acting irregularly and they showed in a number of ways they were badly disordered. I was told I had gravel. I heard how someone else had been cured by Doan's Kidney Pills, so I got a box at Wolcott's Drug Store. They helped me at once and after I had taken four boxes, the pain had left and I felt a great deal better."

Price 60, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Boren had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Adv.)

Sap and Salt

By BERT MOSES

The unselfish man is the sap of society—the salt of the earth.

People who sing as they work are seldom bothered with doctor bills.

We have to give the snake credit for setting two idle people at work anyhow.

The severest test of true friendship is to be touched too often for a loan.

It is difficult to maintain a good reputation if you have what the world calls "a good time."

The Man Who Gets the Thing Done is the man who gets his name first on the company's letter-head.

Hez Heck says: "Ignorance must have an important part to play in civilization, otherwise there would not be such a generous supply.

to control the disease and to educate the public in regard thereto. Prominent specialists from some of the government Hospitals are expected to be on the program, as well as a representative from the United States health service.

Just as The Twig is Bent

Asked to define the years of education we should probably, without giving much thought to the question, place the earlier limit at six years, the age when the child generally enters public school.

Further thought will not bear out this assertion. The first six years of a child's life are all-important to his education. During these his habits of thought and conduct are established, and his happiness and success in life are either assured or made difficult of attainment.

The child trained to self-control and obedience has advanced a long way on his preparation for life. He accustoms himself readily to the routine of the schoolroom, and learns easily to concentrate his mind on study. In other words, he is prepared to gain the greatest advantage from his school work.

The child used to over-indulgence—the "spoiled child"—is handicapped from the start. It will require time to overcome the lack of training—if indeed it can be overcome—and to fit him to the conditions of life.

Our little citizens-in-the-making deserve the best possible introduction to life and to education. And this can only come to them by instilling into them in their early years submission to the laws of a well-regulated home.

Keep up The Habit

It is a good idea to keep up the eating of food not entirely made from wheat throughout the country. The whole grains are best in the long run and the habit of seeing everything white in cakes, breads, etc., is something that will benefit our stomachs the sooner it is overcome.

Barley and rye are good for a greater purpose than that for which they are now used most abundantly—liquors. They are good to eat with our meals not in the degenerate state but in the whole nourishing state where all that is originally found in the kernel is there.

"E pluribus unum" means "one from many." Let us hope that Russia will soon affix something in this sort of a motto to her mastheads.

It may be that formerly we were too proud to fight, but certainly now we are proud of our fighting.

WOULD NOT ALLOW ANY INTOXICANTS

Amendment to Dry Law Reported in House Abolishes Right to Hold Limited Quantity

BLOW IS AIMED AT DRY BEER

Among Important Bills Ready for Introduction is one Creating Highway Commission

(By United Press.)

Indianapolis, Ind., Jan. 27.—When the legislature reconvened this afternoon after its week-end recess, the public morals committee in the house reported out the Wright bill, proposing to amend the prohibition law, with recommendations that the bill be passed as introduced.

Representative Wright, who fathered the prohibition bill at the 1917 session of the legislature, stated today that when the prohibition bill was passed it was not known by the prohibition leaders in the house that it had been amended so as to permit anyone to retain a small amount of whiskey and beer. The bill reported favorably today would abolish this privilege.

Another feature of the bill reported today would prohibit the manufacture and sale of "dry-beer" on the ground that some of it contains alcohol. Under the new bill, no beverages containing alcohol, no matter how small the quantity, may be sold in the state.

Wright declared that many persons had found means of putting a "kick" in near beer and he is of the opinion that this class of drinks is more harmful in many ways than the regular form of intoxication.

It is expected that there will be little opposition to the bill introduced by Senator Masters of Indianapolis which would provide for confiscation of vehicles in which intoxicants are brought into the state.

With these two measures enacted into law, the Indiana prohibition leaders have stated they are convinced John Barleycorn will officially and finally pass into the great beyond.

empowered to condemn land for highways; to improve city streets, if they are part of the highway; and charge the excess cost to the city; abandon roads which are no longer of use, the roads then to be made a part of the county system or closed entirely.

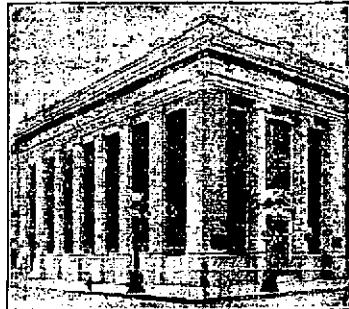

Funds for state road work are to be procured from a ten cent levy on each \$100, the proceeds of the inheritance, automobile and chauffeur's license taxes. Federal aid will also be given the state under the proposed system, amounting to about \$17,000,000 in the next five years. It is calculated that the state will have \$7,000,000 a year to spend on highways during the next five years.

This Is The Original Wide Spread Spreader

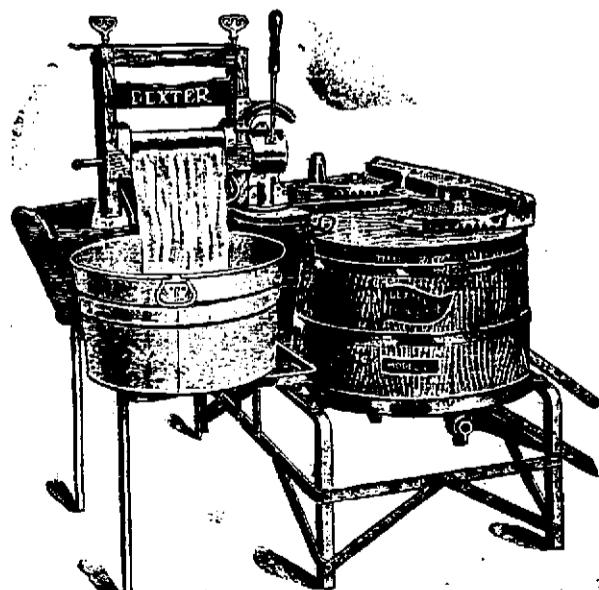

And on account of this feature and the simplicity, durability and dependability of it the makers claim to have reached the three-fifth mark of all the spreader sales made in America in 1917. The other manufacturers, seeing this have copied it until today there are several so-called wide spreaders on the market, but there is none that will beat it in any respect. Come to E. A. Lee and get the original, built by a firm which was the first to solve the spreader problem, by 18 years of successful spreader building. We have them at the right price, having placed our order at a time before the two last advances. The conditions are such that they can't be cheaper for some time. other war contributions, and their allotment of \$275 for this drive will be paid from it. Anderson township will pay its quota of \$450 out of the township's war chest.

Other townships are well on the road to their quotas. Half of Ripley township's allotment of \$450 was in sight yesterday after \$188 was raised at the Friends church by the township chairman, Owen S. Hill. The Fletcher M. E. church of Carthage has already contributed \$49.50, making the total now \$237.50.

Approximately half of Rushville township's share of the county's portion has already been contributed through the Sunday schools. All Sunday schools in the county who have made offerings for the Armenians and Syrians and have sent them on to New York, are urged to report the amount to the county chairman, as the county will receive credit for all contributions.

Meetings will be held throughout the county this week wherever there is a desire for them. The county chairman will provide speakers if any of the township chairmen wish to use this method in raising their quota.

The township chairmen and the quota of each township are as follows: Ripley, Owen S. Hill, \$450; Posey, S. S. Offutt, \$350; Walker, Alba Hurst and E. B. Lowden (east half) and T. K. Mull, (west half), \$300; Orange, D. O. Alter, \$300; Rushville, L. E. Brown, \$1,500; Jackson, J. N. Stevens, \$200; Center, Charles Trowbridge, \$350; Union, Rolland Murray of Glenwood, \$325; John F. McKee, \$275; Riland, William Fisher, \$225.

TWO NEW CASES OF "FLU"

Two new cases of the influenza are reported in this city today. This is considered good in comparison to the number of cases in other communities. The two new cases reported are: William Robert Elder, of 226 North Julian street, and Mrs. William Leach of 919 North Perkins street.

MERCHANT SHIPS TO DISCARD THEIR GUNS

No Longer Needed as Protection From Hun Sea Raiders—Removed When Vessels Arrived.

CHANCE FOR APPRENTICESHIP

Washington, January 20.—Naval guns and gunners placed on American merchant ships to protect them against German submarines are being removed as rapidly as the vessels reach home ports, said an announcement by the shipping board. The rifles and their crews are returned to the navy, while the steel gun emplacements mounted on bow and stern, are dumped on the docks without ceremony after they are cut away.

With the withdrawal of the naval crews accommodations are afforded for apprentice seamen, firemen and stewards, who will be given final training at sea after courses in the shore schools. The officers must have three months' sea duty before receiving their licenses.

NO DANGER OF A COAL FAMINE DURING 1919

1918 Output Exceeds 1917 by 34,000,000 Tons, According to Fuel Administration.

LOST 125,000 MEN BY WAR.

Washington, Jan. 20.—Danger of a coal famine this year has passed, no matter how severe the weather may become, according to the fuel administration. The supply is sufficient, and the 1918 output exceeded that of 1917 by \$34,000,000 tons. Production of bituminous coal and lignite is estimated at 585,883,000 tons, setting a new high record while the production of anthracite is estimated at 99,473,000 tons, a slight decrease from 1917, when the previous high record was broken by 8,000,000 tons.

The mines lost 125,000 men through military service and to other industries, but this number was made up, so that the total of men employed in 1918 will not fall below that of 1917, when it was 603,000. It is estimated that bituminous mines were worked 225 days in 1918.

Give it in Time

Every mother knows that coughs and colds, neglected, may lead to the most dread diseases. Croup, bronchitis, pneumonia and consumption often have their beginning in a slight cold.

The wise mother gives **Foley's Honey and Tar** at the first signs of a cough or cold. She knows it stops coughs quickly, puts a soothing, healing coating on an inflamed and tickling throat, and gives a feeling of warmth and comfort to the sufferer. Mrs. M. E. Schlarb, Ashtabula, Penn., writes: "Foley's Honey and Tar is the best cough and cold remedy I ever used. When my little girl gets a cold on her chest, I give her a few doses, and it relieves her right away."

OAKLAND

Year after year an overwhelming majority of motorists have chosen the full-tonneau passenger car for its many practical features. It is the selection of most homes where automobiles are used. It affords the amount of room required by a large majority of families, and in its main characteristics measures to the popular idea of a car for constant service.

The high-speed overhead-valve Oakland Sensible Six engine delivers 44 full horsepower at 2600 r. p. m., or one horsepower to every 48 pounds of car weight in the Touring model. Oakland owners regularly report gasoline returns of from 18 to 25 miles per gallon and from 8000 to 12,000 miles on tires.

To Reduce the Cost of Transporting Troops on Transatlantic Liners, Naval Vessels Used.

PRICE PER CAPITA IS \$30.

Washington, Jan. 20.—Arrangements have been made with France and are being perfected with Great Britain to return American soldiers from abroad at a cost below the present charge on transatlantic liners. The average price on a French steamer will be \$30 for an enlisted man and \$60 for a commissioned officer first class. The average on British steamers is from \$30 to about \$37 for a soldier and \$60 to \$75 for an officer first class. It was said at the War Department yesterday that speculative figures had been published, some even from official sources, indicating extraordinary prices per man, running as high as \$137 to \$150.

The navy has placed many war vessels at the disposal of the embarkation service, and some of them are already in service as transports.

WEAKNESS REMAINS

LONG AFTER

Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable ginseng, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kola, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lecithin; Calcium Glycerophosphate; Iron; Aspartic, Glutamic, Potassium, Bicarbonate; Vanicla; Powdered Gentian; Phenolphthalein; Olearsin; Capsicum; Kola.

ARE CONFIDENT OF VICTORY

Leaders of Suffrage Expect to Have

Battle Won Within Few Days

Indianapolis, Ind., Jan. 20.—Leaders of the suffrage movement in Indiana stated today that they are confident of victory at this session of the legislature and furthermore they expect to have their battle won and thoroughly satisfied within the next few days.

Mrs. Richard Edwards, President of the Indiana women's franchise league, states that the women in Indiana are more than satisfied with the support they have received from Governor Goodrich and his party leaders and in the appreciation of the assistance which they have been accorded by him they gladly permitted their amendment to the state constitution to be delayed one session of the general assembly in order that the proposed administration measures might be started this year.

In the week following the signing of the armistice 40,000 inquiries passed through the Red Cross Bureau of Communication.

DAILY HEALTH TALKS

A Single Remedy Often Cures Many Diseases

BY VALENTINE MOTT, M. D.

It is almost impossible to give a list of the endless diseases that follow indigestion. Perhaps a whole column in this newspaper would be required to print them all. You eat to keep alive—to supply blood and flesh and bone and muscle and brain. It is easy to see that if your food is not digested and taken up by the delicate organs and distributed where it is needed, a disease of some sort is sure to come. Dyspepsia is a common symptom, and so are liver complaint, loss of flesh, nervousness, bad memory, dizziness, sleeplessness, no appetite. Many times, when neglected, indigestion results in coughs, throat diseases, catarrh, bronchitis and even more dangerous things. And all these disorders arise because the food is not properly digested in the stomach. It is plain even to a child that relief and cure are to be had only by setting up a healthy condition in the stomach. Dr. Pierce, of Buffalo, N. Y., many years ago combined a number of vegetable growths into a temperance remedy for indigestion, and called it Golden Medical Discovery. It is probably the most efficacious discovery ever made in medicine, for the list of people all over the world who have had their countless ills overcome by Dr. Pierce's Golden Medical Discovery makes an amazing total of thousands.

I know of no advice better than this: Begin a home treatment today with this good vegetable medicine. It will show you better than I can tell you what it will do. When taking Golden Medical Discovery, you can rest assured of one very important thing—it contains neither alcohol nor opiates. There is nothing in it but standard roots and herbs that possess curative properties of a high order. A safe medicine is the only kind you can afford to take.
